

North Carolina Coalition to End Homelessness

This 2009 Ribbon of Hope grant allowed the North Carolina Coalition to End Homelessness (NCCEH), to reach out to those in need and help them access health insurance and housing. The Coalition's project, NC SOAR (SSI/SSDI Outreach, Access and Recovery) will facilitate mentally ill individuals' access to housing and health insurance by providing training, support and coordination to local caseworkers, communities, and governing agencies that use SOAR technology to actively assist mentally ill homeless individuals with disability applications.
